

Information Technology

The City IT Department is directed by Aaron Meyer, IT Director. The City IT staff consists of two Advanced Computer Technicians and a Computer Technician.

The IT Department is responsible for installing, maintaining, and supporting all hardware, software, and network devices for all City Operations. In addition to maintaining the city's IT infrastructure, the IT Staff are responsible for updating the City's website and Channel 19, as well as all other electronic media outlets providing information to the public.
