Search the Catalog

At the top of the library webpage, click **Search Catalog**.

Enter your search terms in the Quick Library Search field. You can either hit Enter on your keyboard, the search button, or one of the buttons below the search field.
Results will show the format of the item. You can filter down to Type of Material as well as other options on the right-hand side.

This shows that we have one copy available out of two copies owned within our branches. You can click Availability to the right for more information.
To do more advanced searching, choose the Search drop-down and click Advanced. You can set different search parameters in the drop-down fields. You can also choose More Search Options to filter down further to things like Collection.
